

Community Health Improvement Plan

Morris County, New Jersey

2022

Priority Areas for Intervention

The Community Health Improvement Plan (CHIP) is designed to set priorities and coordinate resources to improve community health in Morris County. Using data from the 2021 Community Health Needs Assessments (CHNA), **chronic disease, mental health and substance use, healthy aging, and maternal child health** were identified as priority areas for intervention. This document outlines the priority areas for public health intervention, as well as our community health partners' activities that improve these priority areas. The North Jersey Health Collaborative will be tracking the progress of our community partners in executing the CHIP on the [Morris County Progress Tracker](#) page of the [NJHealthMatters](#) website.

This CHIP aligns the missions of organizations across sectors, who, through their programs and services have an impact on the health and wellbeing of their stakeholders and community members. Through education, social support, access to preventive care, screenings and resources, the North Jersey Health Collaborative brings agencies and care partners together to build a strong network. We demonstrate our collective impact using our [County Progress Trackers](#) on the [NJHealthMatters](#) website.

Bridging the Health Equity Gap

Local and County offices of public health have a core set of responsibilities that include assuring an adequate local public health infrastructure, promoting healthy communities and healthy behaviors, preventing the spread of communicable disease, protecting against environmental health hazards, and preparing for and responding to emergencies. In order to effectively promote healthy communities - with the goal of creating health equity, public health needs the support of community agencies and social and human services programs. Community CHIP partners provide information, education, and interventions to individuals and communities, such as education, preventive activities, healthy lifestyle activities, referrals, and social and human services. Our ongoing process includes continually adding new partners and their programs, and an evaluation process where each organization will report on Outputs and Outcomes that will be added to the Progress Tracker on the [NJHealthMatters](#) website. This plan demonstrates how partnerships between community agencies and local offices of public health may bridge the gap in health equity by addressing the social determinants of health that have an impact on health outcomes.

78 organizations are performing 528 interventions as detailed below.

Local public health partners who contributed to this CHIP include the members of the Morris Regional Public Health Partnership.

Category	Interventions	Partner Organizations' Programs and Services
Chronic Disease	Blood pressure screenings	<p>Atlantic Health System- MMC Community Health: <i>Blood pressure screenings.</i></p> <p>Bernards Township Health Dept.: <i>VNA Blood pressure screenings and education.</i></p> <p>Lakeland Hills Family YMCA: <i>Blood pressure screenings.</i></p> <p>Lincoln Park Health Department: <i>Blood pressure screenings.</i></p> <p>Mental Health Association: <i>Provide blood pressure screenings and discuss medical conditions with individuals</i></p> <p>Netcong: <i>Blood pressure screenings at borough hall clinics</i></p> <p>Morris County Division of Public Health: <i>Blood pressure screenings.</i></p> <p>Morris Township Health Department: <i>Blood pressure screenings.</i></p> <p>Morristown Division of Health: <i>Blood pressure screenings.</i></p> <p>Mount Arlington Borough: <i>Blood Pressure screenings at Senior Meetings.</i></p> <p>Mount Olive Health Department: <i>Blood Pressure screenings at Senior Meetings and at office visits.</i></p> <p>Pequannock Health Department: <i>Blood pressure screenings.</i></p> <p>Randolph Township Health Department: <i>Monthly blood pressure screenings.</i></p> <p>Randolph YMCA: <i>Blood pressure screenings.</i></p> <p>Rockaway Twp Division of Health: <i>Monthly blood pressure screenings</i></p> <p>SCDOH/Regional Chronic Disease and Cancer Coalition-Morris & Somerset</p> <p>Counites: <i>Education on prevention and early detection of diseases.</i></p> <p>Town of Morristown-Senior Services: <i>Blood pressure screenings.</i></p> <p>Township of Parsippany: <i>Blood pressure screenings.</i></p> <p>Washington Township Health Department: <i>Blood pressure screenings.</i></p> <p>Westfield Regional Health Department: <i>Blood pressure screenings.</i></p> <p>Zufall Health: <i>Blood pressure screenings.</i></p>
